Policies & Procedures

These Policies & Procedures are effective as of the date first displayed above and govern the way a Student conducts business with Company and/or its subsidiaries (the "Company"). They replace and succeed all previous versions. These Policies & Procedures, including all terms set forth in the Addendum, are binding on the Student as a condition of the Student's course of study with the Company and access to the Company's proprietary information. Student agrees to be bound by all terms, rules, policies, procedures and conditions set forth herein, and agrees to comply with each and every Policy and Procedure, including in the Addendum. These Policies and Procedures, the Statement of Beneficial Interest (if any), and any country or situation specific addendum in their present forms and as amended from time to time at the sole discretion of the Company, are by this reference incorporated into, and form an integral part of, the Student Agreement. Collectively, said documents are referred to as the "Contract". Each Student has the responsibility to read, understand, adhere to the Contract and ensure that he or she is aware of and operating under the most current version of the Contract. By signing a Student Agreement a Student demonstrates that he or she has read and understands and consents to abide and be bound by the Contract, including these Policies & Procedures. The governing definitions are capitalized and found in Appendix A. The term "Company" refers to Company and its subsidiaries, successors and assigns. The term "Student" refers to a Person (and in the case of a minor, the student's parent or legal guardian) currently licensed by the Company to access company educational tools and education resources. Any interpretation, clarification, exclusion, or exception to these Policies and Procedures, in order to be effective, must be in writing and signed by an authorized officer of the Company. The Company endeavors to enforce the Policies and Procedures on a uniform and nondiscriminatory basis. However, any failure to enforce any of the provisions of the Policies and Procedures with one Student does not waive the Company's right to enforce any such provision(s) with that same Student or any other Student. The Company may amend the Contract from time to time as laws and business circumstances change; however, notice of any amendment will be published by the Company on its website at least thirty (30) days before the change is made effective. It is the responsibility of all Students to regularly review the most recently published Contract, located on the Company websites. The Company will also provide a copy of its most current Contract upon the Student's request.

A-1. Governing Law and Arbitration

1. The State of Nevada is the place of origin of this Contract, and is where the Company accepted the offer of an Applicant to become a student and where the Student entered into the Contract with the Company. The Contract is therefore governed by and to be construed in accordance with the laws of the State of Nevada without reference to the conflict of laws principles thereof, and the arbitration provisions herein are governed by the Nevada Uniform Arbitration Act, Nevada Code NRS Sections 38-206-360, et seq. (the "Act"), except as such requirements may be specifically varied and modified by the terms set forth

herein. Student agrees to submit any and all grievances exclusively to binding arbitration as set forth below.

2. Any controversy or claim arising between Company and the Student (and in the case of a minor, a parent or legal guardian), including any controversy or claim arising out of or relating to the Contract or the breach thereof, or any controversy or claim relating to the business arising between Students, exclusively shall be resolved by mandatory, binding arbitration in Carson City, NV, in the United States of America, to be conducted in the English language. Student hereby submits to the arbitral jurisdiction set forth herein, and, with respect to any matters not determined by or subject to arbitration, to the personal jurisdiction of the state and federal courts within Carson City, NV. The arbitration shall be initiated by service of written demand for arbitration on the responding party. Student (and in the case of a minor, a parent or legal guardian) hereby consents to service of such demand by mail to the address for such Student on file with the Company and waives all rights and defenses as to insufficiency of service of process as may be applicable under the laws of the United States or any other country.
3. There shall be one arbitrator, who shall be impartial, independent, and mutually agreed upon by the parties to the arbitration within 30 days following receipt of the written demand for arbitration. If the parties do not reach agreement on a single arbitrator within such period, the parties shall obtain a judicial appointment of an arbitrator pursuant to Nevada State Law.
4. The arbitration and all pre-hearing matters, including discovery, shall be governed by and conducted in accordance with the Nevada Rules of Civil Procedure and the Nevada Rules of Evidence. The arbitration and all proceedings associated therewith are private proceedings and not subject to any public right of access. The arbitrator shall have the authority to enter appropriate protective orders to preserve the confidentiality of the proceedings and information exchanged in discovery. The arbitrator shall have the authority, power, and jurisdiction to grant both legal and equitable relief, including temporary, preliminary, and permanent injunctive relief, and the parties hereto hereby submit to the jurisdiction of the arbitrator for all such relief. The arbitrator shall also have the sole and exclusive authority to determine whether any particular issue is subject to arbitration under this Agreement.
5. The arbitration award shall be a reasoned award, given in writing, and shall be final and binding on the parties hereto and not subject to any appeal, except as specifically provided in the appeal provision below. Judgment upon the award rendered may be entered in any court having jurisdiction, or, application may be made to such court for a judicial recognition of the award or an order of enforcement thereof, as the case may be. Execution upon any such judgment shall be governed by the laws of the State of Nevada, and the parties hereto agree unconditionally to recognize an arbitration award rendered in connection with this Agreement as binding and compulsory and subject to execution pursuant to any applicable laws.
6. Should the Arbitrator enter an award against any party for a sum in excess of fifty-thousand dollars (\$50,000), or enter an award constituting permanent injunctive relief against any party, the party against whom such an award has been entered may appeal the award to a private arbitration panel of three

impartial and independent arbitrators mutually agreed upon by the parties (the "Appeal Panel"). Any such appeal must be taken by written notice served no later than thirty (30) days after the party has received the written award. If the parties do not agree on three arbitrators within 30 days of the date of the arbitration award, the Appeal Panel shall be judicially appointed in accordance with Nevada State Law. The appeal shall be conducted in Carson City, NV, in the United States of America, in the English language. Upon briefing of relevant issues by the parties, and oral argument if requested by the parties, the Appeal Panel shall review and correct the award for (1) any error of law, (2) a failure of substantial evidence to support all or any element of the award, and (3) an error of a mixed question of fact and law. The arbitration panel shall issue a reasoned decision, given in writing, which shall be final and binding on the parties and not subject to any appeal.

7. The parties shall equally share the assessed costs associated with the arbitration, including all arbitrator fees; provided, however, that the prevailing party in any appeal to the Appeal Panel shall be entitled to recover its share of the costs of such appeal from the non-prevailing party. The parties shall each bear their own attorneys fees in connection with the arbitration and any appeal, irrespective of which party prevails and any demand or request made for such fees.

Trading Terms, Conditions and Disclosures

GOVERNMENT REGULATIONS REQUIRE DISCLOSURE OF THE FACT THAT WHILE THESE METHODS MIGHT HAVE WORKED IN THE PAST, PAST RESULTS ARE NOT NECESSARILY INDICATIVE OF FUTURE RESULTS. WHILE THERE MIGHT BE A POTENTIAL FOR PROFITS, THERE IS ALSO A HIGH RISK OF LOSS. A LOSS INCURRED IN CONNECTION WITH TRADING FUTURES, COMMODITIES, SECURITIES OR FOREIGN EXCHANGE CURRENCY CONTRACTS CAN BE SIGNIFICANT AND A STUDENT CAN LOSE ALL OF THEIR MONEY. YOU SHOULD THEREFORE CAREFULLY CONSIDER WHETHER SUCH TRADING IS SUITABLE FOR YOU IN LIGHT OF YOUR FINANCIAL CONDITION AND IN CONSULTATION WITH YOUR OWN INDEPENDENT PROFESSIONAL ADVISORS SINCE ALL SPECULATIVE TRADING IS INHERENTLY RISKY AND SHOULD ONLY BE UNDERTAKEN BY INDIVIDUALS WITH ADEQUATE RISK CAPITAL AND THE ABILITY TO LOSE ALL OF THEIR INVESTMENT.

ANY ADVISORY OR SIGNAL GENERATED BY COMPANY OR ITS AFFILIATES IS PROVIDED SOLELY FOR EDUCATIONAL PURPOSES ONLY. ANY TRADES PLACED UPON RELIANCE ON COMPANY OR ITS AFFILIATES SYSTEMS ARE TAKEN AT YOUR OWN RISK FOR YOUR OWN ACCOUNT AND FOR EDUCATIONAL TRAINING PURPOSES ONLY. PAST PERFORMANCE IS NO GUARANTEE OF ANY FUTURE RESULTS. WHILE THERE MIGHT BE THE POTENTIAL FOR REWARD TRADING COMMODITY FUTURES AND/OR FOREIGN EXCHANGE CURRENCIES, THERE IS ALSO SUBSTANTIAL AND HIGH RISK OF LOSS IN ALL TRADING. YOU MUST DECIDE YOUR OWN SUITABILITY TO TRADE OR NOT IN CONSULTATION WITH YOUR OWN INDEPENDENT INVESTMENT PROFESSIONALS AND ADVISORS. FUTURES OR FOREIGN EXCHANGE CURRENCY TRADING RESULTS CAN NEVER BE GUARANTEED. THIS IS NOT AN OFFER TO BUY OR SELL FUTURES, OPTIONS, FOREIGN EXCHANGE CURRENCIES OR COMMODITY INTERESTS. IN THE EVENT THAT AN INDIVIDUAL'S SUBSCRIPTION WITH COMPANY OR ITS AFFILIATES IS TERMINATED DUE TO NON-PAYMENT, ANY TRADES AN INDIVIDUAL MAKES WILL REMAIN THE RESPONSIBILITY OF THAT INDIVIDUAL. THE INDIVIDUAL AGREES TO

HOLD COMPANY OR ITS AFFILIATES COMPLETELY HARMLESS AND FAULTLESS AND AGREES TO DEFEND AND INDEMNIFY COMPANY OR ITS AFFILIATES FOR ALL COSTS, EXPENSES, DAMAGES, AND FEES INCURRED IN THIS SCENARIO AS IT WAS DUE TO THE INDIVIDUALS LACK OF PAYMENT THAT THE SUBSCRIPTION WAS TERMINATED. FROM TIME TO TIME THERE MAY BE AN INSTANCE WHERE COMPANY OR ITS AFFILIATES SYSTEMS MAY BE DOWN FOR CIRCUMSTANCES OUTSIDE OF THEIR CONTROL. IN THIS EVENT, INDIVIDUAL AGREES TO HOLD COMPANY OR ITS AFFILIATES COMPLETELY HARMLESS AND FAULTLESS, AND TO DEFEND AND INDEMNIFY COMPANY OR ITS AFFILIATES AGAINST ANY ACTION WHATSOEVER REGARDING ANY RESULTING CONSEQUENCES CAUSED BY THE INDIVIDUAL.

Risk Disclosure & Disclaimer Statement

Company or its Affiliates signals, education, webinars, and/or indicators are speculative trading education systems designed to attempt to signal when to potentially buy stocks, futures and/or foreign exchange currencies, potentially at low prices and potentially to sell at higher prices, in either order (either initially "short" or initially "long"). No claims as to past, present or future profitability of these alert advisory services or other Company or its Affiliates systems are made at all, and there is no guarantee that the educational system will provide any profits to traders using the system, and indeed may cause such traders to incur a loss of all of a Student's money.

Hypothetical or simulated educational performance results have certain inherent limitations. Unlike an actual performance record, simulated results do not represent actual trading results. Also, since the trades have not actually been executed, the results may have under- or over-compensated for the impact, if any, of certain market factors, such as, for example, a lack of liquidity. Simulated trading programs in general are also subject to the fact that they are designed with the benefit of hindsight. No representation is being made that any actual account will or is likely to achieve the profits or losses similar to those shown in a simulated educational context. Real world trading is not the same as simulated trading.

All signals, education, webinars, and/or indicators generated by Company or its Affiliates are provided for informational and educational purposes only. Any trades placed upon reliance on Company or its Affiliates systems are taken solely at your own risk for your own account, and the Company recommends that Student consult with their own independent investment professionals before making any such trades. Past performance is no guarantee of future results. While there might be the potential for reward when trading commodity futures or foreign exchange currency, there is also substantial and high risk of loss in all commodity futures trading. You must decide your own suitability to trade in conjunction with the advice you receive from Student's own professional advisors. Futures or foreign exchange currency trading results can never be guaranteed. This is not an offer to buy or sell futures, options, currency, securities or commodity interests.

The signals, education, webinars, and/or indicators generated by Company or its Affiliates are based on educational formulas, with some past success. However, what has happened before might or might not happen again. You can lose all your money trading futures or foreign exchange currencies and you must decide your own suitability as to whether or not to trade in consultation with our own professional advisors. Only trade with true risk capital you can afford to lose in its entirety. Only trade in markets you can properly afford to trade with a risk of a total loss. Properly funded trading accounts typically perform better than those that are not. Never risk more than 5% of your account on any one trade. Stop trading a system if it doesn't fit your risks, suitability, trading style and if find you cannot follow the signals, education, webinars,

and/or indicators. You assume all risks for all trades you execute, and you should only trade based on the advice of your own independent investment professionals.

SEC Disclosure

Past performance does not guarantee any future results. Company or its Affiliates Trading Systems generate educational mechanical trading system signals and are not investment advice. The Company has no financial interest in the outcome of any trades mentioned herein, other than disclosed in the Terms of usage and/or subscription agreement. There is substantial and high risk of loss trading futures and foreign exchange currencies. You need to determine your own suitability to trade them in consultation with your own independent trading professionals. There may be tax consequences for short-term profits/loss on trades. Consult your tax advisor for details on this if applicable. This educational program is for educational purposes only. The Company is a training and education company. The Company does not sell get rich quick programs, guaranteed systems, or business in a box. All educational information provided is speculative and involves a high degree of risk. The Company is not a licensed financial advisor, trader, tax accountant, investment advisor, stockbroker or attorney. The Company does not solicit for brokerage, commodities, futures, securities or other trading accounts. The Company highly recommends that Student work with and seek advice from independent licensed professionals as Student seeks to apply what Student learns outside of the simulated programs. The Company is not responsible for your results in live trading. The Company is not responsible for your investment, tax or trading decisions made with your own money. In this section we would like to remind you of the basic risks to which investors who trade their own funds outside of this learning platform are exposed. These apply equally to all the forms of investment instruments. Please also note that some investments may carry a combination of risks, which will increase the impact of each individual risk.

1. Economic risk:

If, when making an investment decision, you do not take economic trends sufficiently into account or ignore them, and as a result, buy or hold particular securities at a time when the economic environment is unfavorable, there is a risk that the value of your investment may fall (economic risk). In particular, you should note that past performance does not necessarily provide an indication of future performance, and that a rise in the value of an investment does not guarantee that its value will continue to rise in the future. Price losses (and therefore losses to the investor) are always possible. The performance of securities and other investments, including commodities and futures, is influenced by changes in economic trends. Securities, stocks, commodities and other investment prices (and exchange rates) react in particular to changes (or announcements of changes) in national economic and fiscal policy. You should therefore continually monitor your investments to ensure that the allocation of assets by asset class and country is appropriate to the economic environment, correcting previous investment decisions where necessary. Timing is a crucial factor in every investment decision.

2. Inflation risk (purchasing power risk):

The value of your investment may also fall as a result of a drop in the value of a currency (inflation risk). This represents a downside risk both to the real value of the assets and to the real return on the investment. As an investor, you should therefore take the real yield into account. The real yield on a fixed-interest security or similar investment is the difference between the yield and the inflation rate. Neither equities nor tangible assets offer the investor any comprehensive

protection against currency depreciation. Depending on inflation levels, dividend income and price gains (or price losses), the real yield can be negative as well as positive. It is not possible to generalize about which types of investment keep their value best. However, when compared over the long term, tangible assets have performed better and have therefore been more stable than money assets.

3. Country risk and transfer risk:

Events that destabilize a country's political or social system may cause the country's government to intervene into the servicing of foreign debt. This may result in non-payment by the country concerned. Consequently, the foreign creditor, although solvent, may not be able to make interest or redemption payments on time or at all because of a lack of foreign currency or the existence of exchange controls in its country of domicile (country risk). There is no way of hedging against the risk arising from non-transferability of funds (transfer risk). The country ratings published in the financial press are a very useful guide to country risk. Countries are rated according to their creditworthiness.

4. Exchange rate risk:

If you hold foreign currency denominated financial instruments and the value of the underlying currency falls, you are exposed to exchange rate risk as well as downside price risk. A fall in the underlying currency may in some cases reduce the instrument's yield advantage to such an extent that, with hindsight, it would have been preferable to invest in an instrument denominated in your local currency.

5. Liquidity risk:

The possibility for the investor to sell securities or other investments at any time at market prices is described as liquidity. Difficulties in buying or selling securities, commodities, futures and other similar investments can be caused not only by narrow, illiquid markets, but also by the particular features of the security or by market regulations. In some circumstances, it may not be possible to execute buy or sell orders immediately, in full (in the case of partial execution) or on favorable terms. You may also have to pay higher transaction costs. If you require short-term liquidity, you may need to take out a bridging loan, incurring additional costs as a result. Penny stocks carry a particularly high liquidity risk. As the name suggests, the price of these stocks is usually less than USD 1; they are often sold through a single brokerage house only and are not exchange-traded. Investors in penny stocks do not have the certainty of knowing whether or at what price the brokerage house will continue to trade in them. If, as the only market maker, the broker ceases to trade in the stocks, they become illiquid. This means there is no guarantee that investors will be able to sell back their penny stocks.

6. Psychological market risk:

Irrational factors such as sentiment, opinion and rumors can also trigger significant price falls on the stock market, even if there has been no deterioration in results and earnings outlook of the companies concerned.

7. Tax risk:

Before making an investment, find out the tax implications and make sure that the investment meets your expectations from a tax point of view. Please consult with your own independent tax experts on tax risks.

8. Interest rate risk:

Interest rate risk results from the possibility of future interest rate movements in the market. During the term of fixed-interest bonds, a rise in interest rates will cause prices to drop, whereas a decline in market interest rates will cause prices to increase.

9. Risk of total loss:

The risk of total loss is the risk that an investment becomes worthless, for instance because it is devised as a right that is subject to a time limit. A total loss is especially likely to occur when the issuer is no longer in a position, for financial or legal reasons, to meet their payment obligations (insolvency). The risk of total loss also arises when issuers of securities find themselves in financial straits and the authorities in charge resort to resolution instruments, cancelling the shares of shareholders, for example, or using the bail-in option for unsecured bonds, which may lead to a complete write-off of the bonds' face value.

Commodity Futures Trading Commission and Other Disclaimers

Neither Company nor its Affiliates, nor its principals, officers or employees are CTAs. The Company is a training and education company only. All educational information provided is speculative and involves a high degree of risk. The Company is not a licensed financial advisor, trader, tax accountant, investment advisor, stockbroker or attorney. The Company does not solicit for brokerage, commodities, futures or other trading accounts. The Company highly recommends that Student work with and seek advice from licensed professionals as Student seeks to apply what Student learns outside of the simulated trading environment. The Company is not responsible for your results. The Company is not responsible for your investment, tax or trading decisions made with your own money. In the case of transactions involving future transfer of ownership (e.g. foreign exchange forwards, futures, writing of options), price risk may make it necessary to post collateral (a margin) or to raise the existing margin, i.e. to tie up liquid assets. You should consult your own investment professionals before engaging in any such transactions using your own funds.

Becoming a subscriber and/or trading any of the system's signals presumes you have fully read and understood the speculative risks involved in trading futures/foreign exchange currencies as set forth below:

Introducing Broker

The Company, its affiliates, owners, contractors, and/or employees (collectively, the "Company") does not recommend, refer, introduce, or connect investors to any specific broker for foreign exchange or futures transactions, or any securities or commodities transactions. The Company is not a broker or an introducing broker, and does not have any relationship (contractual, agency, preferred, or otherwise) with any broker. The Company is not engaged in soliciting, recommending, accepting, or placing customer orders of any kind for any transactions, including, but not limited to, foreign exchange or futures transactions. Any broker you use for foreign exchange or futures transactions must be chosen solely by you as the Student.

Additional Notices

There are no guarantees or certainties in trading. Reliability of trading signals for educational mechanical systems are in potential probabilities only. Trading involves hard work, risk, discipline and the ability to follow rules and trade through any tough periods during a system's draw-downs. If you are looking for a guarantee, trading is not for you. Most people lose trading, and many lose all of their money. One of the reasons is that they lack discipline and are unable to be consistent. A system can help you attempt to learn to become consistent. The ability to be disciplined and take the trades is equally as important as any technical signals, education, webinars, and/or indicators a trader uses. Ironically, worrying about the money aspect of trades can contribute to and cause a trader to make trading errors. Therefore, it is important to only trade with true risk capital that student can afford to lose in its entirety.

For example, a claim can be misleading if relevant information is left out or if the claim implies something that's not true. Our Disclaimers and Limitations on Liability

All trades, trade reports, charts, text/audio trade OR market coverage, training sessions, phone sessions AND/OR any trading results, of any kind, should be viewed as hypothetical and without merit; and if they were accurate, they may never be able to be duplicated in the future -- it is not our intention to and we will not make specific trading recommendations, and no claims are being made that we are initiating the signals posted. Your attempt to duplicate these posted trades may be hindered by the inherent delay in receiving a post AND executing that post, market liquidity, AND your own trading issues -- slippage, commissions, trading software/internet outages, etc.. A stop loss may not limit your loss to the amount intended. NO representation is being made that any account will OR is likely to achieve profits or losses similar to those shown for educational purposes.

All subscribers OR anyone viewing the Company or its Affiliates updates or services information acknowledge and agree that they are aware of the risk parameters involved in trading, and that the leveraged nature of futures trading can cause losses greater than your account balance. You further agree to accept full, complete, and sole responsibility for any and all results. Opinions are current opinions only, and past results are not indicative of future results. Company or its Affiliates provides this information for your private use only. We do not represent that it is accurate or complete, and it cannot necessarily be relied upon. It is your responsibility to know and define the risk before trading. You agree that all trading decisions are your own. You agree that you will not hold Company or its Affiliates, or anyone associated with Company or its Affiliates, liable or responsible for any of your losses or results.

This statement is furnished to you because rule 1.55 and 4.41 of the Commodity Futures Trading Commission requires it.

The risk of loss in trading commodity futures, currency, and options contracts can be substantial. You may lose all of your funds. You should therefore carefully consider whether such trading is suitable for you in light of your financial condition. You also should consult with your own investment professionals. In considering whether to trade, you should be aware of the following:

You may sustain a total loss of the initial margin funds and any additional funds that you deposit with your broker to establish or maintain a position in the commodity futures market. If the

market moves against your position, you may be called upon by your broker to deposit a substantial amount of additional margin funds, on short notice, in order to maintain your position. If you do not provide the required funds within the prescribed time, your position may be liquidated at a loss, and you will be liable for any resulting deficit in your account.

This brief statement cannot, of course, disclose all the risks and other significant aspects of the commodity markets. You should therefore carefully study futures trading before you trade and consult with your own trading professionals.

Distribution and or re-transmission of any of the content provided by Company or its Affiliates in any form or by any medium is expressly prohibited. You also agree to submit and consent to the personal jurisdiction and venue of any such court in the event Company or its Affiliates commences an action against you.

If any term or provision of the Subscription Agreement or of these Terms of Use is finally found by a court of competent jurisdiction to be void, invalid, unenforceable or otherwise contrary to law, the remainder of the Subscription Agreement or Terms of Use, as the case may be, that can be given effect without such term or provision, shall be given full effect.

Any failure by Company or its Affiliates to enforce strict performance of any provision of the Subscription Agreement or the Terms of Use will not constitute a waiver of its right subsequently to enforce such provision or any other provision of the Subscription Agreement or Terms of Use.

DISCLAIMER

As a potential purchaser of the software through Company, I hereby understand and agree as follows:

1. I am purchasing a software package that will be electronically downloaded into my personal computer and upgraded from time to time by Company, and therefore there is no opportunity for refund or return. The amount I spend to purchase the Company software is non-refundable.
2. I understand that personal profitability is based on my use of the software and based upon my ability to recognize indicia and promptly execute trades using reasonable computer skills. I recognize that all trades I make are solely at my own risk and further that any decisions to execute trades are done completely at my discretion and are my sole responsibility.
3. Purchase of the Company software or any other product through Company creates a license agreement between purchaser and Company. Said license permits the software to be used on only one computer at a time for the benefit of only one trader. Any reproduction or retransmission of the signal without the express written permission of Company is strictly prohibited. Any sharing of information or signal provided by Company will result in immediate termination of signal without refund of any monies paid. Trading rooms operated by anyone other than Company are prohibited.
4. I further understand and agree that the software signal and or any other product of Company (for example the ONIT Program software or commentary provided by coaches or chat) are provided specifically for me. I agree that in the event the signal, commentary, or anything associated with a product sent to me is copied, transmitted (orally or otherwise), shown (electronically or otherwise) for purposes of influencing a third party to execute a live trade, such will result in the Company being damaged in an amount of not less than one million (\$1,000,000) dollars or such greater amount as may be determined by binding arbitration with the America Arbitration Association. I further agree to be personally liable for such damages.
5. Federal, state, local and Securities and Exchange Commission laws, rules, or regulations particularly SEC Rule 4.41 (B) PROHIBITS ANY PERSON FROM PRESENTING THE PERFORMANCE OF ANY SIMULATED OR HYPOTHETICAL FUTURES ACCOUNT OR FUTURES INTEREST OF A CUSTOMER TRADING ACCOUNT, UNLESS A DISCLOSURE STATEMENT ACCOMPANY THE PRESENTATION. THE STATEMENT DESCRIBES THE LIMITATIONS OF SIMULATED OR HYPOTHETICAL FUTURES TRADING AS A GUIDE TO THE PERFORMANCE THAT A CUSTOMER TRADING ACCOUNT IS LIKELY TO ACHIEVE IN ACTUAL TRADING. COMMISSION RULE 4.41(B)(1)(I) HYPOTHETICAL OR SIMULATED PERFORMANCE RESULTS HAVE CERTAIN INHERENT LIMITATIONS. UNLIKE AN ACTUAL PERFORMANCE RECORD, SIMULATED RESULTS DO NOT REPRESENT ACTUAL TRADING. ALSO, SINCE THE TRADES HAVE NOT ACTUALLY BEEN EXECUTED, THE RESULTS MAY HAVE UNDER-OR-OVER COMPENSATED FOR THE IMPACT, IF ANY, OF CERTAIN MARKET FACTORS, SUCH AS LACK OF LIQUIDITY. SIMULATED TRADING PROGRAMS IN GENERAL ARE ALSO SUBJECT TO THE FACT THAT THEY ARE DESIGNED WITH THE BENEFIT OF HINDSIGHT. NO

REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFITS OR LOSSES SIMILAR TO THOSE SHOWN.

6. Trading in the commodities markets involves substantial risk of loss and this is not appropriate for everyone. You should carefully consider your financial condition before trading in these markets and only risk capital should be used. The Company software is used in conjunction with indices traded at the Chicago Mercantile Exchange and other markets. These markets are perhaps the most volatile of all potential markets and often experience large daily price movements. In addition, these markets are often illiquid, making it difficult to execute orders at desired prices. Also, during periods of extreme volatility, trading in these markets may be halted due to so called "circuit breakers" put in place by the exchange to alleviate such volatility. In the event of a trading halt, it may be difficult or impossible to exit a losing position. The best way to minimize your exposure in such situations is to exit any active trade making yourself flat, cancel all working orders and refrain from trading until normal trading conditions return
7. In addition, market conditions alone may make it impossible to exit a position during a daily trading session, thus creating the possibility of a margin call. Company is not responsible for damages or losses caused by any delays, defects or omissions that may occur in services provided by the Company or any other party. Any content provided by Company shall not be the basis for any claimed damage whether actual, alleged, consequential or punitive. Company makes no representation or guarantee as to products and shall have no liability for any electronic content delivered by any third party, including without limitation its accuracy, subject matter, quality or timeliness.
8. Company makes no claim to the accuracy of the Company software or the percentage of correct trading recommendations declared. Further the Company makes neither claim nor guarantee as to customer/authorized re-sellers success in using the product. Use of the software requires some degree of individual skill.
9. By execution of this agreement I understand that I am solely responsible if I sustain any losses incurred through use of the Company software. All decisions to trade are my sole responsibility. Company is not responsible in any way for any potential losses sustained.
10. I further understand that in the event a decision to establish an account for trading is made, the funds placed in said account should be discretionary. Therefore, I herewith declare that I am willing and financially able to sustain any losses possibly incurred through the use of this product.
11. Company is not liable for any financial losses whatsoever including but not limited to delays in signal transmission, delivery or execution of traders orders due to malfunction of communications, traders lack of understanding of terms used in trading, confusion of the rules of trading, facilities problems such as loss of power, computer problems, either related to software or hardware, internet problems or any other cause whatsoever.
12. All activities engaged in by traders are done strictly at his or her own risk. Any and all information furnished customers is provided without responsibility for its accuracy. Company website and all signal information provided shall not be the basis of any claim, or cause of action whatsoever against Company.

13. Any performance relied upon by comparing the Company software to any other product is based upon hypothetical trading information. Hypothetical or simulated performance results have inherent limitations. Unlike any actual performance record, simulated results do not represent actual trading. Also, since actual or real trades have not actually been executed the results may or may not reflect an actual market experience. Company makes no representation that a trading account will or is likely to achieve profits or losses similar to any shown.
14. Any report or article on our web site includes information deemed to be reliable and accurate as of the date of its publication, but no independent verification has been made and we do not guarantee its accurateness or completeness. Any reliance on information contained in these reports is at the sole risk of the readers.
15. In no event shall Company, or any Company re-seller, affiliate, shareholder, officer, director or employee, be liable to me (or anyone claiming for or through me) for any consequential, indirect or special damages; and in no event shall Company aggregate liability exceed \$5995. ANY DISPUTES CONCERNING THE PURCHASE OF ANY PRODUCT FROM COMPANY OR ANY OTHER SOFTWARE PACKAGE PURCHASE OR USE, THE RE-SELLER AGREEMENT OR A RE-SELLER'S RELATIONSHIP WITH COMPANY OR OTHER RE-SELLERS SHALL BE SETTLED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEVADA AND JURISDICTION AND VENUE SHALL BE HAD IN NEVADA AND FURTHER THAT ANY AND ALL DISPUTES SHALL BE RESOLVED BY THE AMERICAN ARBITRATION ASSOCIATION. I HEREBY WAVE ANY RIGHT I MAY HAVE TO RESOLVE ANY DISPUTE IN A COURT OF LAW IN ANY STATE.
16. Company Refund and Return Policy: There is no refund of the purchase price paid for the Company software or any other of the Company's products. You are purchasing a software package that is downloaded into your computer for use and therefore is not refundable. The use of any portion of a month makes that month non-refundable. By signing this agreement, you acknowledge you have read this "no refund" policy and agree to it before purchasing. On physical merchandise no opened packages will be accepted for refunds or returns. On all acceptable items for refund or return in exchange for other merchandise, there will be a 15% re-stocking charge*. If an item is defective, the 15% re-stocking charge will be waived and replacement product will be sent. Notice must be received in writing (E-mail is acceptable) by the Company prior to the 1st day of the month for refund. *Fee not applicable in Hawaii
17. Futures and Foreign Exchange Currency trading contains substantial risk, is not for every trader, and only risk capital should be used. Any form of trading, including options, hedging and spreads contains risk. Past performance is not indicative of future results. Margins are subject to change without notice. No representation is being made that any account will or is likely to achieve profits or losses. There have been no promises, guarantees or warranties suggesting that any trading will result in a profit or will not result in a loss.
18. Practice in using the Company software is essential to success. As the purchaser, I hereby agree that before I fund my trading account and risk real money using the Company system trading live in the market, I will complete two weeks of simulated paper trading and an additional four weeks of simulated

platform trading using the Simulation mode on Green Chart and the Demo mode in a practice trading platform provided by the broker of my choosing. I further agree to complete the education given to me with my training materials. I understand that shortening simulated trading time or failing to complete the education provided to me for stock market background information, will result in my failure to be a successful trader.

19. AS THE UNDERSIGNED, I HAVE READ AND UNDERSTOOD AND I DO HEREBY CONFIRM MY INTENT TO ACT WITHOUT DELAY TO IMPLEMENT THE CONTENTS OF THIS AGREEMENT. IN WITNESS HERETO, THE PARTY INTENDING TO BE BOUND HEREBY, HAS CAUSED THIS AGREEMENT TO BE DULY EXECUTED AND SIGNED AS OF THE DAY AND YEAR HEREAFTER WRITTEN OR AGREED TO ONLINE. I HEREBY AGREE TO THE TERMS AND CONDITIONS HEREIN.

You agree to indemnify and hold us and (as applicable) our parent, subsidiaries, affiliates, officers, directors, agents, and employees, harmless from any claim or demand, including reasonable attorneys' fees, made by any third party due to or arising out of your breach of this Agreement or the documents it incorporates by reference, or your violation of any law or the rights of a third party.
